

*Eurospeak's **English for Specific Purposes: Oil and Gas Industry** course is suitable for students interested in a career in the oil and gas industries. Eurospeak's **ESP Oil and Gas Industry** gives students the language, information, and skills they will need for a career in these industries.*

A highly communicative course, Eurospeak's **ESP Oil and Gas Industry** provides students with functional language to use in a variety of work scenarios. It exposes students to a variety of situations and accents and activities include dialogues, presentations, and interviews. It also covers items of numeracy, measurement, and associated language relevant to working in the oil and gas industries. The writing component in the course provides writing practice, teaching students important skills such as technical report-writing.

The course is available in two levels: A2/B1 and B1+/B2.

Eurospeak's **ESP Oil and Gas Industry** comprises 120 hours of training (4 weeks) and allows students to:

- ✓ Improve their general English
- ✓ Learn the professional language they need to communicate effectively in professional contexts.

On successful completion of the course, you will be awarded the Eurospeak **ESP Oil and Gas Industry** certificate.
